Intergroup representative: In the many locations where an intergroup has been formed, each group usually elects an intergroup representative, who participates in business meetings with other such representatives several times a year to share their groups' experience in carrying the A.A. message. The intergroup representative tries to keep the group well informed about what the local intergroup is doing. Our intergroup in the Elmira District has a meeting once a month. It is on the second Weds of the month and the meeting lasts for 1 hour. Each group should elect a intergroup representative and send them to the intergroup meeting.
